

Important Message from your Pastor

December 29, 2007

Dear Brethren,

I hate not to be with you today, but to avoid passing something on to you that you do not want; I will send you this note instead.

God is revealing some exciting ways to preach the gospel this coming year. We need to pull out all stops in helping to fulfill the Great Commission especially considering some of the things you will hear in Cliff's sermon today. We are like a frog in a pot of hot water, being gradually boiled to death spiritually as a nation.

God has called us to join Him in finishing His work on earth today. This is a spiritual work – transforming lives into the example of Jesus Christ. He is our hope, our life, our future. He has called each one of us to be witnesses of His resurrected life in us.

We have been SO blessed - beyond any other nation since creation. We need to follow the example of the New Testament church and use these unbelievable resources God has given us for God's eternal purpose.

In 2008 God is and will continue to open up fabulous doors in sharing the Good News to our community BEFORE they completely close their ears and shut their eyes. I feel this sense of urgency before it is too late.

After you hear Cliff's sermon, you will see why 2008 will be a pivotal year when the evil one himself plans to shut the ears of Americans to the gospel as he has already done on the entire continent of Europe.

There are still some who are willing to listen. We need to pray for our city and nation as never before. Pray now that God will open doors only He can open for us this year. And let us sacrifice and share these resources so we are ready to walk through those doors God will open in answer to our prayers.

With fervent love for these people God will call into His spiritual family,
Pastor Mel
